

North American Spine Society Research Funding Available

The North American Spine Society (NASS) is the leading multidisciplinary organization representing caregivers and research scientists in the field of spinal disorders. NASS supports basic, clinical and translational science performed with integrity with the goal of improving quality spine care for patients and understanding underlying disorders. NASS membership is not required to apply for funding.

Instructions and forms to apply for 2009 funding are available at:
http://www.spine.org/Documents/Final_09_research_grant_application.pdf

Research Grants

For investigative research on the spine

Young Investigator Grants for Investigative Research on the Spine

Principal investigators may be any age, but must be within five years of completion of training at the time of application

Nontraditional, Nonsurgical Treatment Grants

Supports research of disc-related and/or neuropathic back pain by nonsurgical techniques

Clinical Traveling Fellowship

At least one month must be spent in three to five different medical centers studying spine techniques

Research Traveling Fellowship

At least five months must be spent at one medical center (other than the facility at which the applicant currently practices)

Deadline: Letters of Proposal for grants must be received in the NASS office by February 2, 2009. Fellowship applications due May 4, 2009.
